To,
Hiring Manager

Subject: Application for Web Developer Role

Dear Hiring Manager,

I am writing to express my interest in opportunities that align with my background in web development and UI/UX design. With a strong foundation in front-end technologies and a passion for creating responsive, user-friendly interfaces, I am excited to contribute my skills to innovative and impactful projects.

On my portfolio website, you'll find examples of my work that showcase my ability to design and build functional, modern web applications. I specialize in technologies such as HTML, CSS, JavaScript, React, and SCSS, and I take pride in writing clean, maintainable code. I am also experienced in tools like Figma, Git, and modern frameworks that support agile development workflows.

Beyond technical expertise, I value collaboration, clear communication, and continuous learning. Whether working independently or as part of a team, I bring enthusiasm, problem-solving skills, and a strong attention to detail to every project.

I would welcome the opportunity to bring my passion and dedication to your organization. Thank you for taking the time to review my portfolio and consider my application. I look forward to the possibility of contributing to your team.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience align with your needs.

Warm regards,
Saritha Sasidharan

Saritha Sasidharan

Web/UI Developer & Designer

 Naduvilaparambu Chira, Poonthopp, Alappuzha, Kerala, India - 688006

 Passport No: V2813988

Frontend/UI Developer with 8+ years of experience building responsive, user-friendly websites and digital interfaces. Proficient in HTML5, CSS3, JavaScript, React, WordPress, and Elementor, with expertise in Figma for wireframing and prototyping. Strong focus on clean, pixel-perfect designs that enhance UX and align with brand goals. Skilled in cross-functional collaboration, performance optimization, and SEO-friendly development. Passionate about modern design trends and delivering engaging, high-quality frontend solutions.

Technical Skills

- **Web Design:** HTML5, CSS3, JavaScript, React, WordPress, Elementor, Divi, Wix, Bootstrap, Tailwind
- **UI/UX Design:** Figma, Canva, Adobe Photoshop
- **Responsive Design:** Mobile-first design, cross-device optimization
- **Prototyping & Wireframing:** Wireframes, mockups, high-fidelity prototypes
- **Additional Tools:** Bitrix24 (basic familiarity), Appform, React, Node.js, Express.js, MongoDB

Experience

Sr.UI Developer - L12022 - Present

ClaySys Technologies, Ernakulam, Kerala

- Designed and developed user-centered web applications using HTML5, CSS3, JavaScript, and React, ensuring seamless functionality and responsive design across devices.
- Created wireframes, prototypes, and high-fidelity mockups to align with business requirements and enhance user experience.
- Collaborated with cross-functional teams (product, development, and management) to deliver projects on time and meet customer needs.
- Established design guidelines to standardize the look and feel of multiple applications, ensuring brand consistency.
- Enhanced UI components, including input controls, navigational elements, and informational components, to improve usability and accessibility.

Team Leader & Web Designer2020 - 2022

Azym Technologies - Alappuzha, Kerala

- Designed highly engaging, interactive user interfaces that complied with modern web standards and client specifications.
- Optimized website performance by improving page load times, image optimization, and code efficiency.

- Increased online engagement by incorporating interactive features such as multimedia elements, animations, and call-to-action buttons.
- Managed domain registrations, web hosting accounts, and configured templates for clients to easily customize. Led a team of designers and developers, ensuring timely delivery of projects and maintaining high-quality standards.

Freelance Web Designer & Developer

2015- 2019

- Designed and developed custom websites and landing pages for clients, ensuring responsive design and user-friendly navigation.
- Optimized website performance through regular evaluations and adjustments, leading to improved search engine rankings.
- Created custom email templates and digital assets aligned with brand guidelines and project specifications.
- Increased client satisfaction by delivering projects on time and incorporating feedback into iterative design improvements.
